CONNECTING TO A TRUCK

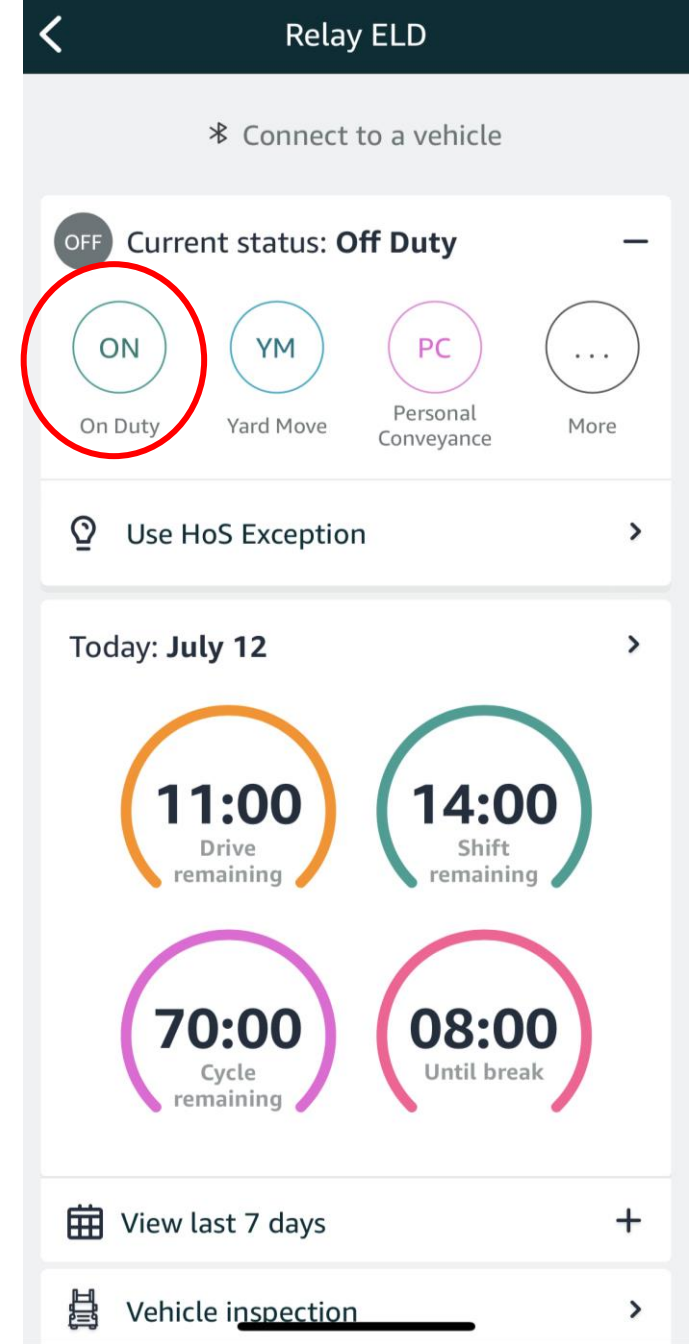

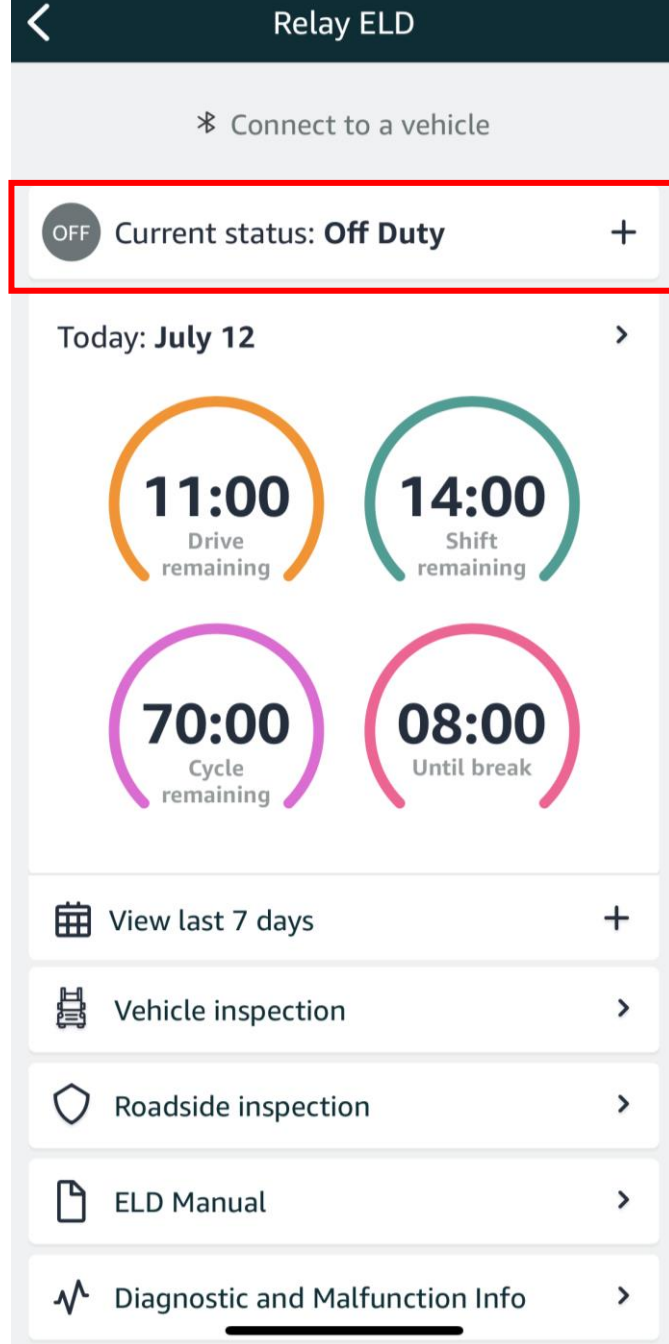

2) An ELD malfunction is indicated by a "M" in the header with magenta background.

What should a driver do if the ELD displays a diagnostic or malfunction Indicator?
When a diagnostic is indicated, continue operating with the ELD as normal but monitor for a clearing of the diagnostic or indication of a malfunction.
When a malfunction is indicated, reconstruct paper records of duty status (RODS) for the current 24-hour period and the previous 7 days. Continue to use paper RODS until the ELD malfunction has cleared.

ROAD SIDE INSPECTION

The screenshot shows a mobile application interface titled "Send logs". At the top, there is a status bar with a VPN icon, the time 9:41 AM, and a 100% battery level. Below the title bar, there is a back arrow on the left and a yellow square icon with a white 'D' on the right. The main content area contains the question "How would you like to deliver the logs/report?" followed by two radio button options: "Web services" and "Email". Below these options is a text input field labeled "Routing code (optional)". At the bottom of the screen is a light blue button labeled "Submit".

send logs to FMCSA
tap "Web Services" or
"Email" and add a
comment as directed
by the law
enforcement officer
and tap "Submit". You
will receive a success
or error message
within 15 seconds.
